Date: To be Advised

Time: 10am-5pm

Duration: 3 Days /18 Hours

Venue 1: Bandar Puteri Puchong, Selangor, Malaysia

Venue 2: Plaza Mahkota, Melaka, Malaysia

Up Coming Course

Why and for who?

Adobe® Illustrator® CS4 is intended for graphics, marketing and publications officer of a company who want to learn how to use Adobe Illustrator to create graphics for use in company profile, product catalog, advertisement, proposals, and multimedia presentations.

What will you learn?

Adobe® Illustrator® CS4 software is a comprehensive vector graphics environment with new transparency in gradients and multiple artboards that invite you to explore more efficient ways to design.

The latest version, Illustrator CS4, is the fourteenth generation in the product line. Numerous new features include multiple artboards in a single document. Other tools include the Blob Brush, which allows you to make a more natural paint brush stroke (reminiscent of Microsoft paint or other non-vector drawing programs) which then becomes vectorized, and a new gradient tool that allows for more in depth manipulation of colors.

You will start learning with fundamental concepts and features then will work on advance features for you to master the skill. Discover the unique features of Illustrator, including how to create logos, professional type effects, complex airbrush effects and color control, layers, masks, patterns, graphs, blends, filters, custom color, and much more.

Course Content

~ Illustrator An Introduction

~ Working With Layers

~ Getting Started With Illustrator

~ Selecting And Aligning

~ Creating And Editing Shapes

~ Transforming Objects

~ Drawing With The Pen And Pencil Tools

~ Color And Painting

~ Working With Type
